ULO Percentages and Final Results

ULO ASSESSMENT AND ULO PERCENTAGES

As stated in the unit guide, each successful student must achieve all unit learning outcomes (ULOs). Consequently, if a student does not achieve all ULOs, normally that student will fail this unit.

The percentage breakdown of each ULO across the summative assessment tasks, and the overall percentage weighting of each ULO are specified in the following table. A weighting value in a row is the sum of percentages within that row. For example, ULO3 is assessed in Task 1 and Task 2, 10% and 25% respectively, and 35% of marks for this unit are available from ULO3.

	Task 1	Task 2	Overall Weighting
ULO1	25		25
ULO2		30	30
ULO3	10	25	35
ULO4	5	5	10

ULO PASS MARKS

To achieve a ULO, a student must obtain the specified minimum mark associated with that ULO. These minima are as follows.

	Pass Marks (@ 40%)
ULO1	10 / 25
ULO2	12 / 30
ULO3	14 / 35
ULO4	4 / 10

For example, to pass ULO3, you must obtain at least 14 out of 35. As ULO3 is assessed in Task 1 and Task 2 at 10% and 25% respectively, the sum of marks from both tasks will be used. Consequently, you could obtain 3/10 from Task 1 and 12/25 from Task 3 to produce a value of 15/35 to achieve ULO3. As another example, you could obtain 8/10 from Task 1 and 7/25 from Task 3 to produce a value of 15/35 to pass ULO3.

UNIT FINAL RESULTS

Your final result normally consists of a numeric mark and a grade such as 62 C. The requirements to achieve a particular grade in this unit are specified in the following table.

Grade	Requirements
High Distinction (HD)	A student must achieve all ULOs and obtain an overall mark of at least 80 to receive a high distinction grade (HD).
Distinction (D)	A student must achieve all ULOs and obtain an overall mark of at least 70 to receive a distinction grade (D).
Credit (C)	A student must achieve all ULOs and obtain an overall mark of at least 60 to receive a credit grade (C).
Pass (P)	A student must achieve all ULOs and obtain an overall mark of at least 50 to receive a pass grade (P).
Fail (N)	A student that does not achieve all ULOs or does not obtain an overall mark of at least 50 will receive a fail grade (N). If a student does not achieve all ULOs but achieves a mark of 50 or more, their final result will be 44 N.

Examples

1. The following ULO marks 25/25, 15/30, 25/35 and 10/10 will produce a final result of 75 D.
2. The following ULO marks 25/25, 15/30, 20/35 and 10/10 will produce a final result of 70 D.
3. The following ULO marks 25/25, 15/30, 15/35 and 10/10 will produce a final result of 65 C.
4. The following ULO marks 25/25, 15/30, 10/35 and 10/10 will produce a final result of 44 N.
5. The following ULO marks 5/25, 5/30, 10/35 and 10/10 will produce a final result of 30 N.

In example 4, the numeric values sum to 60/100, but ULO3 was not achieved. Remember, a student must achieve all ULOs to pass. In this case, as ULO3 was not achieved, the final mark is 44.
